REPORT OF SUPERINTENDENT OF SCHOOLS

To the School Committee and Citizens of Baldwin:

I hereby submit my annual report as superintendent of your schools.

We found it necessary to secure only two new teachers at the opening of the school year in the fall. Mrs. Emma Lamont was employed at West Baldwin to fill the vacancy caused by the resignation of Miss Brawn, and Miss Mabel Harmon at North Baldwin supplied the place left vacant by Miss Bailey.

List of teachers:

Harry Sanborn, 2 years at U. of M., $7\frac{2}{3}$ years' experience.

Emma Lamont, partial normal course, $6\frac{2}{3}$ years' experience.

Edna Smith, Castine Normal graduate, $2\frac{1}{3}$ years' experience.

Edna Roberts, Gorham Normal graduate, $2\frac{1}{3}$ years' experience.

Gladys Cartret, Gorham Normal graduate, $7\frac{2}{3}$ years' experience.

Mabel Giles, Gorham Normal graduate, $20\frac{1}{3}$ years' experience.

Mabel Harmon, Gorham Normal graduate, $11\frac{1}{3}$ years' experience.

We have four pupils attending Fryeburg Academy, nine at Standish High, eight at Cornish High and eleven at Potter Academy.

Tuition is \$125 per year at F. A., \$1.50 per week at Standish, \$60 per year at Potter Academy, and \$73 per year at Cornish.

We are glad to report that of the 35 honor pupils at F. A., more than 25% are from the Baldwin and Hiram district.

In the Pigeon Brook school Mr. Henry Pierce has offered two prizes of \$25 each to the boy and the girl who show the greatest improvement for the year. These prizes will be awarded in June.

During the year two health days have been observed when all the children of the town met at East Baldwin to participate in health programs. Dr. Clifford, of Portland, gave an interesting talk on the care of the teeth and Mr. Hall, Field Secretary of the Y. M. C. A., showed educational films.

In June Dr. Dennen very generously gave the use of Camp Oatka to the schools of Baldwin and Sebago for their annual field day celebration. The morning was given over to games and sports conducted by the teachers and Scoutmaster Emery, and after dinner the pupils of Baldwin gave a fine literary entertainment at Sir Galahad Hall.

Early in the fall the teachers were called together several times for the purpose of making an intensive study of the new course of study submitted to us by the State Department of Education, and these meetings will be continued throughout the year. To meet the demands of this new course, it is absolutely necessary that the textbooks and other materials required be supplied. It took a long time to plan this curriculum, and it was especially designed to meet the needs of rural teachers.

In the near future Mrs. Spearin, State Rural Field Agent, will spend three days in this district assisting the teachers in adopting this new course of study to local needs.

At North Baldwin one side of the roof has been shingled and a new circulating heater installed. At East Baldwin both rooms have been redecorated. At Pigeon Brook one side of the roof has been shingled and the schoolroom sheathed and painted. The Burrell building has been painted on the interior.

The East Baldwin building needs painting on the exterior. Pigeon Brook needs the shed and one side

of the roof shingled and painting on the outside. The North Baldwin schoolhouse also needs painting on the outside. The most urgent need is at West Baldwin, where the schoolhouse needs to be painted inside and out. No money has been laid out here since it was built.

I wish to call your attention to the fact that in previous years we have had a large unexpended balance from which to draw. In 1930 this amounted to \$1,013.52. This year our unexpended balance is only \$74.20, so we have found it necessary to overdraw in order to meet current expenses.

Allow me to quote from a letter recently received from the State Superintendent of Schools, Mr. Bertram E. Packard: "It seems wise to effect economics in all ways possible in the matter of supplies, equipment, repairs, etc. Remodeling of buildings and certain repairs might well await more favorable times, but it does seem to me that we should make a very serious mistake if we in any way materially reduce the salaries of teachers. Salaries are already very low in Maine. According to the latest statistical information, we are lower than any other New England state and are on an average of approximately two hundred twenty-five dollars per year lower than the neighboring state of New Hampshire. Of the forty-eight states we stand thirty-six in our average salaries paid.

"In our present economic situation, if the cost of roads and highway repairs were reduced to a minimum, it would not be considered necessary to cut down on school appropriations.

"In the face of danger or disaster on a sinking ship we would strike down anyone who attempted to save himself at the expense of a child. Children come first, not only on sinking ships but in our hearts, our homes, our schools, and our churches. They are first. The race can save itself—can lift itself higher—only as children are lifted up."

ANNUAL REPORT OF THE DIRECTOR OF PHYSICAL EDUCATION

BALDWIN PUBLIC SCHOOLS

Mrs. Celia Sanborn,
Supt. of Schools, Baldwin, Maine.

The modern physical education program includes character training, preparation for complete living through the inculcation of health habits, and the training for leisure time activities for later life enjoyment. All these points we are endeavoring to establish in the schools of Baldwin.

At the beginning of each term, a term outline in physical education is given each teacher, followed by a weekly half-hour demonstration lesson. The teacher carries on each day the work demonstrated. The State Department of Education requires that twenty minutes a day shall be spent on health and physical education.

We believe that the physical condition of the Baldwin school children has improved during the last two

years. The corrections that followed the medical inspection a year ago, followed by the corrections obtained at the dental clinic last summer, have raised the standard considerably.

Much credit is due the helping teacher, Mrs. Giles, for the efficient way in which she supervised the sports day at the close of school in June. We believe it is excellent training for isolated country children to come together in groups and learn how to get along together.

The establishment and support of this department by superintendent, committee and townspeople has been appreciated by your director. It shows a desire for modern things in education on the part of the town as well as the desire for the best good for the boys and girls in school.

Respectfully submitted,

GRACE C. HOWARD.

REPORT OF SUPERINTENDENT OF SCHOOLS

To the Citizens and Superintending School Committee
of the Town of Baldwin:

I hereby tender my annual report of the schools of Baldwin for your consideration.

There has been only one change in the teaching force during the year. Harry Sanborn, of the Burnell school, tendered his resignation in June, and Miss Evelyn Rankin was elected to fill the vacancy.

List of Teachers:

Mabel Harmon, Gorham Normal School graduate, $3\frac{1}{3}$ years' experience.

Mabel Giles, Gorham Normal School graduate, $21\frac{1}{3}$ years' experience.

Gladys Cartrett, Gorham Normal School graduate, $8\frac{2}{3}$ years' experience.

Edna Roberts, Gorham Normal School graduate, $3\frac{1}{3}$ years' experience.

Emma Lamont, part normal course, $7\frac{2}{3}$ years' experience.

Evelyn Rankin, Gorham Normal School graduate.

Edna Smith, Castine Normal School graduate, $3\frac{1}{3}$ years' experience.

At the opening of the fall term in September, salaries of all teachers in Baldwin were cut from \$20 per week to \$18 per week.

All of our teachers attended the Saco Valley teachers' convention at Fryeburg, and all but one the Cumberland County teachers' convention in Portland. It is pleasing to note that Mrs. Lamont, Miss Smith, and Miss Harmon attended the State convention in Bangor, although on account of present conditions, none were urged to go.

The following statistics, compiled in the month of July, may be of interest to you:

Number of different pupils registered during year, 137

Number of above conveyed at expense of town,	24
Average daily attendance,	111
Aggregate attendance of all pupils for year,	199.80
Number of weeks schools were maintained,	36
Number of pupils completing last year of school course,	6
Number of teaching positions in town,	7
Average salary of teachers per week in 1931-32,	\$20
Average salary of teachers per week in 1932-33,	\$18
Average salary of teachers for year 1931-32,	\$720
Average salary of teachers for year 1932-33,	\$648

Sight and hearing tests:

Number given tests,	137
Number found defective in sight,	4
Number found defective in hearing,	0

We have six pupils attending school at Fryeburg Academy, eight at Standish High School, five at Cornish High School, and eight at Potter Academy.

The State Department of Education has just sent us this notice: "The apportionment of the State School Fund in December, 1933, as compared with December, 1932, will entail a shrinkage of approximately 18-20%. You may safely reckon that your State School Fund apportionment will be reduced by this amount. In order to be in the same position as to school funds for the next fiscal year that you were for the past fiscal year, it will be necessary to add this amount to appropriations at the annual March meeting. In the preparation of your budget, you will need to take into careful consideration this reduction in the State School Fund."

The West Baldwin schoolhouse has been painted on the outside and newly decorated on the interior. At East Baldwin it became necessary to repair the furnace at an expenditure of \$74.80.

The coming year we would advise the painting of the East Baldwin and North Baldwin schoolhouses and making minor repairs at Pigeon Brook. At West Baldwin the old furnace is worn out, and in order to make the build-

ing safe and comfortable for the children, it will be necessary to install a new one.

There seems to be some misunderstanding in regard to the legal school holidays. According to the State Laws, the following days shall be observed as school holidays: Patriots' Day, April 19; Memorial Day, May 30; Independence Day, July 4; Labor Day, first monday in September; Armistice Day, November 11; Christmas Day, December 25; Thanksgiving Day, as appointed by the Governor and Council. Upon vote of the Superintending School Committee, Washington's Birthday, February 22, and Columbus Day, October 12.

The following information has been obtained from a bulletin recently issued by the State Department of Education: The chances of a pupil going to high school, which were only 1 in 25 in 1890, are now 1 in 2. The chances of a pupil going to college, which were only 1 in 33 in 1900, are now 1 in 6. One of every 4 Americans attended some kind of a school during the past year. Ten cents per day, paid by every person of voting age in the United States, would pay the entire bill per year for public education, elementary, secondary, and college.

At the last Legislature, a bill was passed which requires all teachers coming into the profession to have at least one full year of normal training following four years' work in an accredited high school. This is a wise provision, for our fine children are entitled to be under the leadership of efficient and well-trained teachers. "We must bear in mind that a poor school is always an extravagance, while a good school is always an economy."

Below I quote from a communication received from the National Education Association: "The future of America is being carried today on the feet of little children. Good schools are essential. The advantages which are denied this year can never be replaced in succeeding years. A road may be repaired this year, next year, or the year after. The situation is entirely different with school support. Schools deal with children, primarily,

and childhood is brief. We must protect American boys and girls against the results of a condition for which they are not in the least degree responsible."
